Data Protection Procedures

1) Introduction

South Harford & Tuckswood Community Association has a data protection policy which is reviewed regularly. In order to help us uphold the policy, we have created the following procedures which outline ways in which we collect, store, use, amend, share, destroy and delete personal data.

These procedures cover the main, regular ways we collect and use personal data. We may from time to time collect and use data in ways not covered here. In these cases we will ensure our Data Protection Policy is upheld.

2) General procedures

1. Data will be stored securely. When it is stored electronically, it will be kept in password protected files. When it is stored online in a third-party website (e.g. Google Drive) we will ensure the third party comply with the UK GDPR. When it is stored on paper it will be filed carefully in a locked filing cabinet.
2. When we no longer need data, or when someone has asked for their data to be deleted, it will be deleted securely. We will ensure that data is permanently deleted from computers, and that paper data is shredded.
3. We will keep records of consent given for us to collect, use and store data. These records will be stored securely.

3) Bookings

1. We will collect relevant details required for bookings. This will include the names and contact details of people who make the booking as well as bank account details.
2. On the booking form we will explain how their details will be used, how they will be stored. We will only send users messages which relate to their booking.
